With all methods, select any items and options you would like.

The purchase buttons remain inactive and greyed out until a product is selected.

Selecting a product will 'turn on' the add to cart button, but will return you to any questions not selected as shown here.

Selecting from ALL options will activate the GOLD Paypal button and the BLUE Paypal CREDIT button, as well as the Add To Cart button.

These steps are the same for all methods of purchasing JLS Leather goods.

Purchase Options

From here, you can:

Add to cart

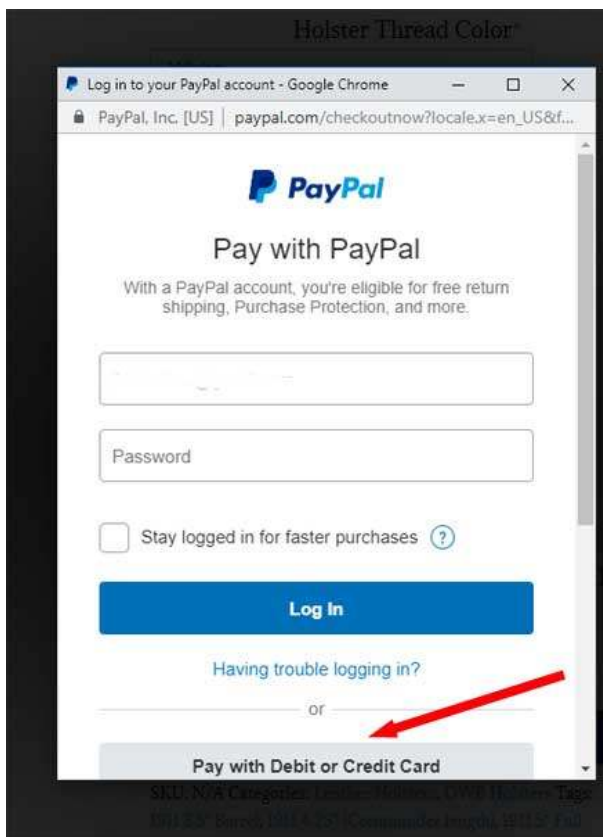

purchase multiple items at one purchase, or save items for later purchase.

Items are placed in the cart and can be reviewed and purchased during checkout.

This is like any other shopping cart. You are then asked to complete your shipping address, select a shipping method, and then directed to PayPal for secure payment.

PayPal

purchase the item on the page you are using. If you just want to purchase the item without creating a PayPal account, click the GOLD button as shown.

Using this button will open another window where you can enter credit or debit card and shipping address without going to a cart or checkout page.

This window will give you the opportunity to register with PayPal, but you can continue to the button in the bottom of that window to bypass.

PayPal CREDIT

Use PayPal Credit, or apply for credit.

Contact us by contact form, email, or phone. We will discuss the options you would like and send a **personalized invoice** detailing your request, or **take your card over the phone**, whichever you prefer.
